

1. Muscle Strength Tests
 - Manual Muscle Testing
 - Dynamometer Strength Assessment
2. Range of Motion Tests
 - Goniometry
 - Flexibility Assessments
 - Joint Mobility Evaluation
3. Orthopedic Tests
 - Shoulder Impingement Test
 - Knee Ligament Stability Tests
 - Spine Flexibility Tests
 - Neck Range of Motion Test
4. Neurological Tests
 - Deep Tendon Reflexes
 - Nerve Tension Tests
 - Dermatome Sensation Test
5. Functional Capacity Tests
 - Timed Up and Go Test
 - Walk Test
 - Balance Assessment
 - Sit-to-Stand Test
6. Pain Assessment Tests
 - Visual Analog Pain Scale
 - Trigger Point Identification
 - Pain Pressure Threshold Test
7. Special Condition Tests
 - Scoliosis Screening
 - Postural Assessment
 - Gait Analysis
8. Rehabilitation Specific Tests
 - Core Strength Evaluation
 - Proprioception Test
 - Rehabilitation Potential Assessment
9. Cardiovascular Tests
 - Bruce Protocol Stress Test
 - Six-Minute Walk Test
 - Cardiovascular Endurance Assessment
10. Sports-Specific Tests

- Functional Movement Screen (FMS)
- Athletic Performance Assessment
- Sport-Specific Biomechanical Analysis

11.Specialized Orthopedic Assessments

- McKenzie Assessment (Spine)
- Cyriax Examination
- Neer Test (Shoulder)
- Appley Test (Shoulder)
- Thomas Test (Hip Flexor)
- Lachman Test (Knee)

12.Neurological Specific Tests

- Slump Test
- Straight Leg Raise Test
- Upper Limb Tension Test
- Babinski Reflex Test

13.Ergonomic and Workplace Assessments

- Workstation Ergonomic Evaluation
- Repetitive Strain Injury Assessment

14.Pediatric Physiotherapy Tests

- Developmental Milestone Assessment
- Cerebral Palsy Functional Tests

15.Geriatric Specific Tests

- Frailty Index
- Fall Risk Assessment
- Bone Density Screening
